

CONNECT RIGID PANELS WITH EASE

The Link-It range of clear, plastic connectors allows for quick, easy assembly of cubicles, modular display boxes or cabinets, pigeonhole storage units, partitions or screens in public spaces like classrooms, restaurants, offices, boardrooms, canteens etc.

Link-It can be configured to almost any shape and is affordable, modular and stable. The flat surface at the base of the connector allows for fixing to surfaces using adhesive tape or one can use the circular opening and insert a screw for an even stronger mounting solution.

The product range consists of a Cross piece, Straight, T-Piece, 90°, 135° and a Swan Support. Link-it connectors are recommended for use with 3mm thick, rigid substrates.

LINK-IT X-CROSS

Product Code:
STABS-3-4-90 (2/Pack)

LINK-IT T-PIECE

Product Code:
STABS-3-3-90 (2/Pack)

LINK-IT 90° CORNER

Product Code:
STABS-3-2-90 (6/Pack)

LINK-IT 135° ANGLE CORNER

Product Code:
STABS-3-2-135 (6/Pack)

LINK-IT STRAIGHT

Product Code:
STABS-3-2-180 (6/Pack)

LINK-IT SWAN SUPPORT

Product Code:
STABS-SWAN (2/Pack)
