

## SAFETY SIGN SECTIONS

An aluminium framing solution for emergency and safety signs for double or single sided applications.

- Double sided application allows a maximum of 2mm substrate per side. Once frame is in place the corners can be glued to the frame to secure the substrate and hold the frame.
- Aluminium profiles in 3m lengths, available in Mill and Silver (Anodised) finish.

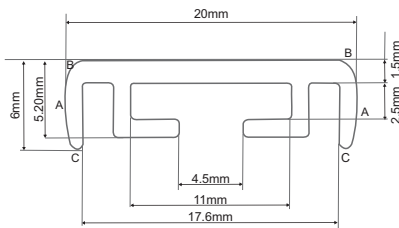

### SAFETY SIGN ALUMINIUM PROFILE

product code (mill finish)

**ALSSAFETYSIGN/M**

product code (silver/anodised finish)

**ALSSAFETYSIGN/S**
