

## FLOOR PROTECTORS CHAIRMATS

Chairmats are the ideal solution for floor protection around desks and workstations.

### FEATURES

- Virgin Polypropylene (PP) material with a misty translucent colour.
- Has a slightly concave bow to ensure no turning up of corners.
- Optimum thickness of 2,5mm for easy roll-on, easy roll-off.
- Durable textured surface finish and high impact resistance.
- Easy to clean.
- Environmentally friendly, 100% recyclable.
- Sizes available to suit most workstation requirements.

### APPLICATIONS

- Ideal for standard single/double pedestal desks where not much movement across the desk is done.
- Ideal for use with general clerical, computer and typist size chairs.
- Not recommended where large bulky executive chairs are used.
- Ideal for low pile carpeted tiled floor, ceramic tiles, laminate and hardwood floor surfaces.

### PLEASE NOTE

Some 'solid wood' floors are actually quite soft for example SA Pine. Please contact your supplier and enquire before using a floor protector to avoid possible damage and wear to the wooden flooring.

## FINISHES

### Clear Non-Slip Finish

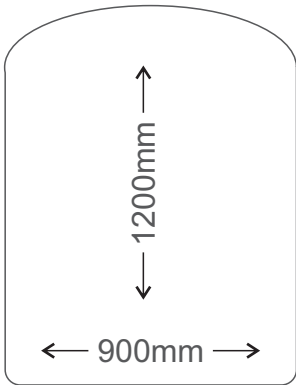

- Newly developed co-laminate extrusion offers full covering of the chairmat (replacing the strips). The almost invisible smooth and non-slipping undersurface sits firmly on the floor surface and allows easy and quiet movement of chair casters across the grained chairmat surface.

### Studded Finish

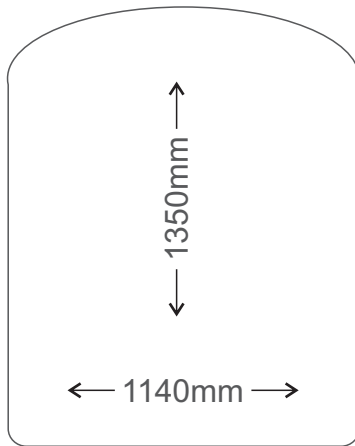

- Ideal for deep piled carpets.
- Undersurface includes a grid on 25 mm centres of 4mm extruded spikes to allow the protector to grip into the carpet surface without damage to the carpet.

## DELIVERY PROGRAMME

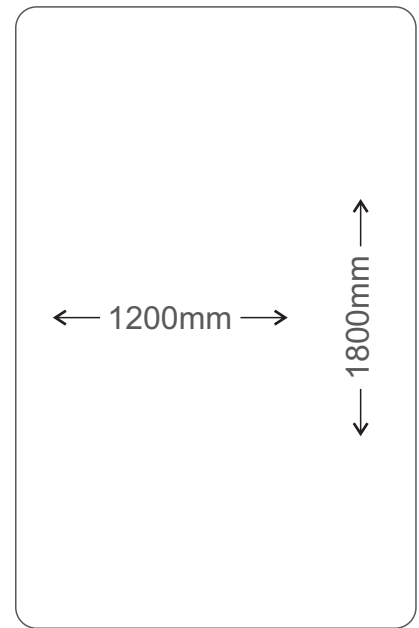

- Clear Non-Slip and Studded finish
- Sizes:
  - 1200mm x 900mm (Standard curve)
  - 1350mm x 1140mm (Executive curve)
  - 1800mm x 1200mm (Diplomat – square)

Curved Shape Standard  
Non-Slip Pr Code: CMCNS1200900
