

## POSTER FRAMES

### EEZI-SLIDE LITE FRAME

With EEZI-SLIDE Lite Frame it is as simple as sliding out the media sandwich from the opening on the one side of the frame and inserting the new graphic.

In no time and with very little effort you have an updated your single or double sided display.

- Single or Double Sided
- 16mm Aluminium Profile
- Standard Sizes: A4 to A0
- 2 Suspension Clips
- Suitable to be mounted as a projected sign
- Custom sizes available on request

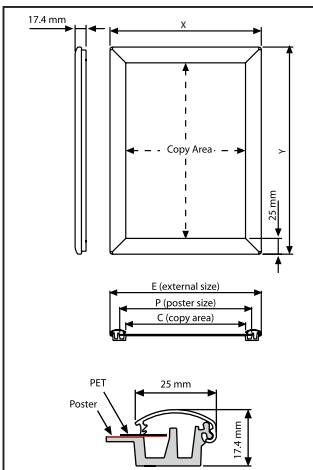

Opening in profile for easy graphic removal.

### KWIK-KLIK ECO FRAME

A very price competitive poster frame perfect for small poster sizes. The front profiles are made of silver anodized aluminium with the backing and the corners injection molded. The small and elegant safety corners make the ECO-FRAME a user-friendly product while keeping the look of a mitred frame.

- Silver anodised aluminum profiles
- Profile: 14mm / 25mm
- Available with mitred corners.

PROFILE	POSTER SIZE / FORMAT
14	DIN A6 105 x 148mm
14	DIN A5 148 x 210mm
25	DIN A4 210 x 297mm
25	DIN A3 297 x 420mm
25	DIN A2 420 x 594mm
25	DIN A1 594 x 841mm

Accessories for wallfixing included.  
Small sizes available with a counter support.

UNIQUE CONSTRUCTION POSTER FRAMES

## POINT OF SALE PRODUCTS

### KWIK-KLIK POSTER FRAMES

Kwik-Klik poster frames offer a cost effective and creative way to display posters and printed graphics.

The ingenious KLIK system of Kwik-Klik aluminium poster frames allows you to change posters in no time. Simply “KLIK” open the profile, remove the transparent protective sheet (poster cover) and change the poster. Updating of advertising, branding campaigns or display graphics can be done quickly and the durable spring steel hinge mechanism of the Kwik-Klik poster frames ensures long-term durability.

### ABS FRAME

The ABS Klik Frame is a lightweight, robust and cost effective solution for the display of posters and printed graphics. The “klik-frame” profile allows for quick and easy, front loading graphic changes.

- Single Sided
- Standard Sizes: A4, A2 and A1
- Robust, weather proof and UV stable ABS
- Sturdy frames and built-in fixing points for quick installation with clipping mechanism
- Hexagonal backing structure for maximum strength and support
- Frames are 100% recyclable.

### 32mm SECURITY FRAME

- Single Sided
- Standard Sizes: A4 to A0
- (Correx backing with a non-reflective overlay.)

*The shape of the aluminium profile makes it difficult to open which acts as a deterrent against possible vandalism.*

### A-STAND

- Double sided
- Foldable legs (1200mm length)
- 32mm Security Profile
- Standard Sizes: A0, A1, A2 and A3
