TL SERIES

The Grafitack Translucent series is a top quality range of translucent polymeric calendered PVC films for long term outdoor applications (5 to 7 years).

The Grafitack Translucent series is supplied on a 120 gram silicone release liner. A high-quality solvent based permanent acrylic adhesive guarantees perfect adhesion on all kinds of surfaces.

The Grafitack Translucent series was developed for back-lit advertising, and can be used for numerous applications, such as on light boxes and also on most flexible sign faces.

An optimum colour brightness is obtained due to a perfect and regular colouring of the vinyl. The high UV resistance of this vinyl guarantees beautiful illuminated advertising by day as well as by night, year after year.
