

SPECIALITY PRODUCTS
- PERFORATED WINDOW
MARKING FILMS

SUNSHADE

The ideal perforated window film for branding, advertising and the creation of striking one-way vision graphics. When printing on the film surface the graphic becomes visible and the perforated black backing allows light to pass through. Dry application on flat surfaces is advised.

- Suitable for Solvent and Eco-solvent (and UV*) inks.
- Removable, transparent solvent-based acrylic adhesive.
- PE coated, non perforated, silicone release liner.
- Removable from most surfaces up to one year after application.

Available in three product configurations.

Thickness	140mic White/Black PVC	180mic White/Black PVC	*180mic White/Black PVC
Diameter of hole	1.5 mm	1.6 mm	1.6 mm
Perforating Ratio	30%	40%	55%
Ink Compatibility	Eco Solvent, Solvent	Eco Solvent, Solvent	Eco Solvent, Solvent and UV
Service Life	Up to 1 year	Up to 2 Years	Up to 2 Years

APPLICATIONS

Recommended for short to medium term advertising graphics on vehicles, window advertisements, signs, bus shelters and other decorative designs. Also suitable for surveillance purposes in shops, department stores, stock rooms or offices.

NOTE: Care should be taken during application. Inks must be cured properly and application surfaces should be clean, dust or grime free and dry.

AVERY DENNISON MPI 3709

MPI 3709 is a 150 micron, digital printable white/black perforated calendered vinyl film for use in a wide range of promotional window graphics applications where one way vision, removability and value for money is required. MPI 3709 still provide sufficient interior daylight and great exterior viewing.

- ▶ Very good printability on Eco solvent, Solvent and UV curable inkjet printers. Can also be used for screen printing.
- ▶ 1.5 mm holes with 40% open area.
- ▶ Good outdoor durability and dimensional stability.
- ▶ Good adhesion level on glass substrates.
- ▶ Removable with heat and/or chemicals.
- ▶ Up to 1 year outdoor use.

APPLICATIONS

Window graphics, vehicle and bus signage, building wraps, retail and commercial signage, bus shelters, POP displays or other rigid transparent surfaces.

NOTE: Always perform a print test with your combination of printer and inks before commercial use.
